The following is for general use to inform different types of budget adjustments on a sponsored program. Specific processes may change depending on the terms and conditions of the award. For specific questions, you can reach out to the Executive Director of OSPRI.

Awarded Budget - approved by the sponsor and incorporated in the notice of award document, either directly or through reference. This is the initial budget loaded into PeopleSoft.

Budget Revision - sponsor requires and approves a revised budget and issues an amendment to the award. The awarded budget is changed in PeopleSoft.

Budget Deviation - actual expenditures that differ from the awarded budget. No change is made to the awarded budget in PeopleSoft.

Spending Authorization - sponsor approves a new spending plan via email. PeopleSoft is not updated.
